

## **White Apple Tree "Perfection Reflection"**

Visit "[Perfection Reflection](#)" on MotoLyrics.com

You've got the future memorized  
You're looking through crystal lakes with your eyes  
The bomb is dropped and the truth's unlocked  
But no one is found in this fucking black box

You're looking for heaven, baby  
But only stars are in your eyes

You're thinking so hard that you're all in a sweat  
If life is a chase so you left here damned  
You're living this moment  
A love in dark red  
Dropped down to earth

You're looking for heaven, baby  
But only stars are in your eyes  
Perfection reflection, baby  
Your truth is watch you fantasize
