In the deepest forest on the mountainside they have  
their nest

A cave so filled with black magic

- You shall not fear the witches, the elder said on to me  
If your conscious is clean and your soul is free from sin  
I can help you get in...

Eyes, black as a night - Her hair, black as a night  
Skin white as snow, I am lost in magic

- Your soul is ill, she said. Dark forces haunts you. In the  
near future I see blood

Eyes, black as a night - Her hair, black as a night  
Skin white as snow, I am lost in magic

She said: - I got the cure, drink it up and you can have it  
all

I got the cure, drink it up and I'll be possessed by you

I open my eyes, I saw a worm-eaten creature staring at  
me

Her magic, oh so sweet...

- You've got what you deserved, black magic overdose  
Now watch yourself slowly turning into stone...

Eyes, black as a night - Her hair, black as a night  
Skin white as snow, I am lost in magic

She said: - I got the cure, drink it up and you can have it  
all

I got the cure, drink it up and I'll be possessed by you
