So much potential lost  
You were given every chance in this world  
But you watched them all pass you by  
Look within your heart, not through your eyes

Iâ€™ve reached out for some time  
But youâ€™ve never taken hold  
It's still not too late to make a change  
Every step you take leads to your grave

We were making a difference  
We were side by side  
Standing tall above this world  
Held together against the tests of time

This commitment is my deliverance  
From the thoughts that say I'm weak  
From the place inside of me  
That forgets my strength and beliefs

So much potential you've lost  
It's still not too late to make this change  
One chance too turn it around  
I can't stand seeing you this way

There's no wasted choices here  
Your life is the one you lead  
Think of your heart and the strength you need  
Because there are still things that last forever

This battle is fought day to day  
The enemy tempts, we must abstain  
Friend, family and the ones I love  
Stand with me and make the change

So now's the time  
To make a change  
A choice for life  
No turning back
