Jeff Moss
Look at me
Here I am
Right where I belong
I see that face coming back to me
Like an old familiar song
What better place could anyone be?
Cause you're here with me
It's all I've been looking for
And so much more
And now I'm here
Now you're here
Nothin' can go wrong
Cause I am here right where I belong!
Look at us!
Here we are!
Right where we belong!
The curtains' up and the lights are bright
And they're playing our old song!
What better place could anyone be?
Cause you're here with me!
So here we go!
Let's start the show!
