Hear my moan, I'll keep my pride  
A true man dares to cry  
Frightened eyes I hate your light  
Alone I'll live and die  
They will try to control  
Your body and your mind  
Trust your fantasy and your dreams  
To gain the eternal light

Walking by myself  
Don't come too close, I don't need your help  
High as a mountain  
I'll be

"The paranoid dreamer"  
They call me for my thought  
I'm "the paranoid"  
'Cause I have a different mind

Hear my voice, I'll hide my truth  
To keep on my way  
Take my hand, they have the fear  
We'll break their vile circle  
They will shatter your soul  
Your dignity will be lost  
Trust your fantasy and your dreams  
To be the first in line

Forever paranoid  
Eternally
