If I could ask for anythin, I'd only want my girl  
I've seen a lot of things  
Going on all around the world  
I had to leave her all alone  
I wrote this down so I can let her know  
That I only want to see her

You should take this heart of mine  
She'll always hve that heart of mine  
(Always have that heart of mine)  
Always have that heart of mine

If I could win the lottery  
We'd sail across the world  
Travel to the Philippines, Hawaiin island  
Just for you and me  
Because o the Eccuador  
Never even compare  
I only want to see her

You should take this heart of mine  
She'll always hve that heart of mine  
You should take this heart of mine  
She'll always hve that heart of mine  
(Always have that heart of mine)  
Always have that heart of mine

You should take this heart of mine  
She'll always hve that heart of mine  
You should take this heart of mine  
She'll always hve that heart of mine

Always have that heart of mine  
Always have that heart of mine  
Always have that heart of mine
