"My Baby"

Visit "[My Baby](#)" on MotoLyrics.com

And when they say that lovers feign
Well, to them, you know, that may be true
All I gotta do is call her name

Well and I got, my baby
Yes I have
You know I've got, my baby

And when I work hard each and every day
It don't matter not to me no more
All I gotta do is just call your name

Well and I've got, my baby
You know I've got, my baby

You know I've got, my baby
Yes I have
You know I've got, my baby

Deep, deep, deep in the heart of night
I lay my head down and go to sleep
I know everything's gonna be alright

Because I've got, my baby
Yes I have
You know I've got, my baby
Yes I have
You know I've got, my baby
