why wont you die?
this is the last time that im here for you
and this will be the last time that you bother me
now listen to me choke

youre just like a pack of wolves

spending your whole life
until someone went dead

now listen to me choke

cross my heart
cross my heart
i hope you die

cross my heart
cross my heart
i hope you die

cross my heart
cross my heart
i hope you die

this is the last time
that i'll be here
in your heart

why wont you die?

how do you like me now
just do me a favor
and pull the trigger
do it for good
goodbye darling
