She was the best thing, best thing that he ever had  
She was the best thing.  
He switched from rum to whiskey.  
She was the only decent thing in a good for nothing  
town.  
She was the prettiest girl in an ugly town.  
He must feel sorry  
I know he hates it  
He switched from rum to whiskey  
[bang bang] bang bang, he put her down  
[bang bang] bang bang, he put her down down  
She was the best thing, best thing that he ever had  
Do you remember the beer on her breath?  
Do you remember your hands on the hem of her dress?  
Do you remember crying when the skirt she wore  
tucked under your hand?  
He switched from rum to whiskey  
[bang bang] bang bang, he put her down  
[bang bang] bang bang, he put her down  
[bang bang] he switched from rum to whiskey  
[bang bang] he switched from rum to whiskey  
Did it keep you from finding someone new?  
Bang bang  
He took her down in two  
She was the best thing in this god forsaken town  
I'm sure that he longs to be free of sin  
He switched from rum to whiskey  
[bang bang] bang bang, he put her down  
[bang bang] bang bang, he put her down  
[bang bang] he switched from rum to whiskey  
[bang bang] he switched from rum to whiskey
