Heartbeat sounding, feel it pounding
Pulsing pain into my soul

Coursing, flowing, bleeding freely
Toxifying is your goal

[Chorus:]
All because of you

Feeling crazy, feel stupid
Feeling like I can't let go

Feeling angry, feeling nothing
Feeling like I have to know

[Chorus:]
All because of you

Constant screaming, search for silence
Just to prove this ain't the end

Fighting, fighting, push resistance
Free myself to breathe again
