Too much too soon,
Too bad for you man..
The wheels fell off the bandwagon
Left you stranded there and no one cares
What will you do?
See whats hot, and whats not?
Imitate, Regurgitate,
The same damn thing
'Til You're back on the scene

You can be something,
You can be everything you're not
Copy this and
Copy that
You can be something,
You can be everything you're not
So give it your best shot!

Motherfucker See, Motherfucker Do
Hey now motherfucker, Fuck you, Fuck You
Such a disgrace say it right to your face
You're a waste of space no doubt
I'll chew you up and spit you out
See right through you,
You don't have a fucking clue
You're an Idiot and that's a fact
You deserve a pat right on your back

You can be something,
You can be everything you're not
Copy this and
Copy that
You can be something,
You can be everything you're not
So give it your best shot!

Motherfucker See, Motherfucker Do
Hey now motherfucker, Fuck you, Fuck You
