I lie awake, no surprise  
So hypnotized, so terrorized.

And you, you fake  
Your way through life  
With crooked dice.

And I...  
Want...  
To...  
For...  
Get!

You!  
Erase!  
The scars you left,  
With every breath.

And I  
Will fight!

Reclaim my mind,  
Cuz this time,  
I am through...

WITH YOU!  
I am through with...

You. The deceit.  
And I know that you're heartless,  
But I didn't start this.

And I hold on tight.  
Walk from this emotion.  
Shake off this explosion.

And I...  
Want...  
To...  
For...  
Get!

You!  
Erase!  
The scars you left,  
With every breath.

And I  
Will fight!  
Reclaim my mind,  
Cuz this time,  
I am through...

You have broken me  
And you have damaged me  
And...  
You have broken me

But you will damage me no more...

Damage no more [x4]

You!  
Erase!  
The scars you left,  
With every breath.

And I  
Will fight!  
Reclaim my mind,  
Cuz this time,  
I am through...
