So this is the time when  
You be what you just wanna be  
I always thought this would  
Come oh so naturally

I'm gonna do just what you  
Order me to do  
So chase me, chase me  
I'll run twelve circles around you

I'll make this way worse than you know

Ain't it a shame that they won't  
Remember all of this?

Let's get, let's get it goin'  
Make a mess way worse than you know  
We'll beat this town black and blue  
With my quick and easy flow

They'll ask us where we came from  
Where's the place that we blew in from  
I wanna make them like us  
I wanna make them worship us

It'll make you feel like you're in love

Ain't it a shame that they won't  
Remember all of this?  
We're all just fakin' out with someone  
Who tells us what we should miss

More fake than you have ever been  
More fake than you have ever  
Spin, spin the truth get a chance

Ain't it a shame that they won't  
Remember all of this?  
We're all just fakin' out with someone  
Who tells us what we should miss

Ain't it a shame that they won't

Remember all of this  
We're all just fakin' out with someone  
Who tells us what we should miss

So tell me what to miss  
So tell me what
