See me see me im right here
Displaying rumors of affection
Displaying my desires
And deep down
My love can go no bounds
Here in my sanctuary
I study you
Books and books upon shelves
When will they fall
When will they fall

Pre-Chorus

Fall on me
Fall on me
Fall on me

Chorus

You give me purpose
You make me breath
My wind without you
Is an empty breeze
All these falls
Ya all these falls
There all on me
There all on me

Breakdown

Chorus

You took my life
You help me breath
I see so cleary
Through hate and greed
My death and redemption was a just cause
My mind and misery you put on....

Pre-Chorus

Chorus
