Sometimes when I sit there and scream out my guts  
You know you cannot hear a thing  
Psycho extremities, masturbation  
Breath down the streets, fall my head  
Fall through my head  
Roll through my head  
Never give in

{Chorus}

It should have been, it could have worked  
I don't see no reason why  
It could have been, it should have worked  
To each their own sacrifice

Sometimes I will swim through the feces I leave  
I spit up your disease  
Faking me out, taking me down  
Liquor me up you're sticking around  
I can't see your disease; I can't hear what you hear  
But you see me falling to your weak needs

{Chorus}

I hate you (tell my lies)  
I hate you more than before  
I hate you much more than before

{Chorus}
