My first album had no famous guest appearances
Wait... this is my first album
No Al and JadaKiss
It'll get me money like Al and Jason Rich
excluding all the fines the NBA dished
They say I, can't rap like Jada
Someday I'll, become a playa
My mark on this game will be a crater
as I mix jams with Jada- Kiss
Who says I can't rap, that's Ludacris
I'm makin it big in this bizaness

My record dropped it like its hot
Drop, Drop it like it's hot
I spit rhymes like Juvenile
Do time in Juvenile
No I'm not no child
I'm the child turned the man
My album drops jaws makin the hater turn to fan
It's straight off the chains
I'm rappin like I got ice in my veins
My videos on MTV rock ice
My concert shows on PPV get more viewers than Miami
Vice
More jerseys sold than jerry rice
more customers served than Ben and Jerry's Ice
Cream makes you scream, best record of '03 is what
it's deemed
My record breaks records
for records sold
Whoever holds the record, his records old
This ain't no story of the hood or the streets
just real crazy rhymes and real crazy beats
No, this ain't no album promotion
Just ten tracks filled with soul and devotion
End of november is when my record hits stores
and thanks to my record, my stock soars
November 28 is the date my album drops
And forever changes the world of hip hop
