I sit and listen It's my addiction
Can't retort feelings cuz they're all missin
Self confliction just creates twitching
And no one is here to stop all my unhealthy traditions
Look at them look at him look at her
Look at everybody looking at me looking like a blur
And the view is all distorted when opinions start to leak
The ideas of public make my argument seem weak
Take it to the streets speak my peace and stand up
Cuz I'm not the only one here getting fucked
I'm in love with the game or the product at least
I'll never stop until I leave until quit until I

Chorus

Look at me tell me what I cannot see
It gets more blurry everyday so show me or leave me
I'll give it all to you just tell me what I can do
Don't matter what I say so take me or leave me

Can you tell me why I do the everything that I do
Why we never sell out and we always stay true
If you listen to my words then maybe you will see
Sometimes I feel like you know me better than me
I can write a track sit back and it will die
But you give it life if I'm gone it will survive
And I know what you need all that draws you in
We are all the same we all love but we all sin
And I get it and you won't
And I need it but you don't
Before you speak your mind take the time to think it out
Cuz aint a doubt what this songs about

Look at me tell me what I cannot see
It gets more blurry everyday so show me or leave me
I'll give it all to you just tell me what I can do
Don't matter what I say so take me or leave me

Yeah I get it you wanna fit in
But your life don't suffice so you gotta pretend
You're falling again I'm sorry but it's all in your head
That imaginary honor that you try to defend
You can follow the trends and try to swallow them up

Or jump the bandwagon and just follow your gut
But never the less, it's always the more
Like your car is still in park and your pedals to the floor
Now you're sitting worried flippin and blaming the dirty
pistons
When you know it's blurry vision that's making you look
ridiculous
Specks can't correct the vitamin A deficiency
Tell me what you see cuz the curiosity is killing me

Look at me tell me what I cannot see
It gets more blurry everyday so show me or leave me
I'll give it all to you just tell me what I can do
Don't matter what I say so take me or leave me
