Tell me why!
Do you really not care
It looks like we got something to share
Why!
I know it's really not fair
You look around and there's nobody there
You know!
You know I did the work, put the time, wrote the truth to
fill the lines
You know!
That I've had so much and I'm never backing down and
I'm never losing touch
Oh no!
Now I know it's much better
Let the time take the rain it's the weather
Or not, did you even try
I know a lot of people talking like they do but they lie
Excuses!
Yo, fuck your reasons keep it shut just stick to
breathing
These days have come and gone that's why I'm done
with holding on
I've done a lot
I've said too much
I've lost my grip
Can't feel your touch
I'll take it back it was just too heavy
But for now

Chorus
We're gonna take it all
Won't beg, won't plead or crawl
We'll take you out this time
But first you tell us why
We're the underground
Our circuits built the sound
Before we say goodbye
It's time to tell me why

Don't let me stop I know, I can turn this
Now!
Now I'll turn it around, it's been the same old thing but

I'm living it now
how!
Do you go when I'm bound, it's been three long years
but I'm living it now
So!
You're just another lost hope, just one more proof to
everything I wrote
go!
Cuz you think you know, but you don't, low with a bottle
of soco
Now, tell me how to make it all ok today!
Holding me down with your fucking chains
Going out of our fucking brains
Now I'll show you why I feel this way
Like nothing right here makes sense today
So, let it in let it get inside
Let it take over and watch your past die

We're gonna take it all
Won't beg, won't plead or crawl
We'll take you out this time
But first you tell us why
We're the underground
Our circuits built the sound
You've got to tell us why

Just tell me why I thought it needed to be
What's good for you
What's good for them
What's mine is nothing to me
So I choose to not believe
No!
And not let this get to me!
No!
I don't think that you could see
What this did to me
So just let me be
Just go!
This image is so real
I just can't shake it
The truths not yours to steal
But still you take it

We're gonna take it all
Won't beg, won't plead or crawl
We'll take you out this time
But first you tell us why
We're the underground
Our circuits built the sound
You've got to tell us why
