And may be recorded or monitored }

(Don't blow it)  
City spud said whut up  
And to give you this message  
(Don't blow it)  
(Don't blow it)  
Ali said peace  
And learn today's lesson  
(Don't blow it)  
(Don't blow it)  
Kyjuan said them  
New Jordans comin' out  
(Don't blow it)  
(Don't blow it)  
And Nelly said there's  
Gon be a party down south

For the nigga mention my name  
I let him know the deal  
City nigga, the same nigga  
You thought was a lame nigga  
For the nigga mention my name  
I let him know the deal  
City nigga, the same nigga  
You thought was a lame nigga

For the nigga mention my name  
I let him know the deal  
City nigga, the same nigga  
You thought was a lame nigga  
For the nigga mention my name  
I let him know the deal  
City nigga, the same nigga  
You thought was a lame nigga

Now Murphy Lee is really ready  
Fully prepared and well done  
I told you that I'd give you my all if I sell none  
Expected to sell plenty  
Lotta more than Kenny  
Big as "Coming to America" since I came and sent it  
They saw he got his own money  
"That boy got his own money"  
So please don't try to take nuttin' from me  
I'm talkin' consequences, all my conses see quence  
Will literally take yo face off for the tiniest reason

I'm eas un, eas un on down down down down down  
Makin' my rounds, I'm like a new Santa in town  
Clown, calm down  
I got issues like magazines  
I'll leave you washed up, cut and cooked like mama  
greens  
You only cookerry once in a while like lima beans  
Me, I'm therre all the time behind the scenes  
Livin' my little dream  
Smokin' on Cali Green  
Me, Mike Veen, federal in tinted Limousines

For the nigga mention my name  
I let him know the deal  
City nigga, the same nigga  
You thought was a lame nigga  
For the nigga mention my name  
I let him know the deal  
City nigga, the same nigga  
You thought was a lame nigga

For the nigga mention my name  
I let him know the deal  
City nigga, the same nigga  
You thought was a lame nigga  
For the nigga mention my name  
I let him know the deal  
City nigga, the same nigga  
You thought was a lame nigga

Come on dirty be for real  
I can let you know the deal like a salesman  
I could get you out of these bars like a jail bail man  
But nah, I'm a rapper I'ma put you in bars  
Judge Murphy recommend then niggas put 'em in  
charge  
You practice lookin' hard and you missin' pre-season  
So when it's gametime you on the side cheerleadin'

I'll have you breathing in and out like Ali  
Hatas like Marley, he hot like Tamales

I'm the same derryty  
That came wit them boys in the range derryty  
And it's strange how we 16 mil in they change dirty  
Exchange the range for the six fo' that sit low  
Hatas sick though, mad 'cuz they didn't like us from  
the get-go  
I tip-toe through beats, complete style unique  
16's in the hallway, probably take you a week  
I critique my lifestyle, I change my game 'cuz of fame  
It's a shame to see results in you mentioning in my  
name

For the nigga mention my name  
I let him know the deal  
City nigga, the same nigga  
You thought was a lame nigga  
For the nigga mention my name  
I let him know the deal  
City nigga, the same nigga  
You thought was a lame nigga

For the nigga mention my name  
I let him know the deal  
City nigga, the same nigga  
You thought was a lame nigga  
For the nigga mention my name  
I let him know the deal  
City nigga, the same nigga  
You thought was a lame nigga

Many many many many  
Many mention Murphy Lee name like I'm a reference  
I'ma make yo ass SAT is you try to test me  
I hang where the best be, never been on jet skis  
Been to DC and la like Tyrone Nesby  
Though, most definitely I'm worldwide like Pepsi  
And I take care of my whole household like Jeffrey  
So why you hate us? Wish to mention my name, man?  
Can't understand I'm just doin' my thang

Yo I change for nay-nada nudda mothersucker  
I'll sell music instead of drugs, fans instead of cluckers  
Ya dig? I'm original like a black man wit a gig  
And not eatin' pig is why I had to split ya wig  
But they might, and he might  
You know they watchin' the person who watchin' the  
person  
Jockin' my Johnny Cochran you cornball

All of 'em stick like a corn dog  
48 bars I'm on y'all, I warned y'all

For the nigga mention my name  
I let him know the deal  
City nigga, the same nigga  
You thought was a lame nigga  
For the nigga mention my name  
I let him know the deal  
City nigga, the same nigga  
You thought was a lame nigga

For the nigga mention my name  
I let him know the deal  
City nigga, the same nigga  
You thought was a lame nigga  
For the nigga mention my name  
I let him know the deal

You thought was a lame nigga

For the nigga mention my name  
The same nigga  
For the nigga mention my name  
The same nigga
