"Around The World"

Visit "[Around The World](#)" on MotoLyrics.com

Walk in the room, you say, "Nice to meet you"
I stroll right on past, I look right through you
Just kidding, ha, I'll turn back to review
But I keep on walking and let you pursue

Some people say that I'm a flirt,
Strutting around in my little skirt
Can't help but make your eyes divert
The visual keeps you alert

On the dance floor, bob my head
I smile at you, your cheeks turn red
Don't be shy, give me a try
Let your mind be free

Around the World
If you know the moves now get'in the groove
Ignore the prudes, be a little rude!
Around the World
Head up high, pull your shoulder's back
Now take the plunge and don't look back

Grip. Release. Grip. Release. Grip. Release. Grip.
Release. Grip. Release. Grip. Release. Around the
world

Now turn the music up a notch
Get on the floor let the people watch
Get in the beat
Don't you dare retreat

On the dance floor, bob my head
I smile at you, your cheeks turn red
Don't be shy, give me a try
Let your mind be free

Around the World
If you know the moves now get'in the groove
Ignore the prudes, be a little rude!
Around the World
Head up high, pull your shoulder's back
Now take the plunge and don't look back

Now that Iâ€™ve come itâ€™s just begun
No breakin hearts, weâ€™re just having fun
No matter where youâ€™re from or where youâ€™ve been
Putâ€™yer doubts aside nâ€™ let yourself be seen!

Now that Iâ€™ve come itâ€™s just begun
No breakin hearts, weâ€™re just having fun
No matter where youâ€™re from or where youâ€™ve been
Putâ€™yer doubts aside nâ€™ let yourself be seen!

On the dance floor, bob my head
I smile at you, your cheeks turn red
Donâ€™t be shy, give me a try
Let your mind be free follow my lead

Around the World
If you know the moves now get in the groove
Ignore the prudes, be a little rude!
Around the World
Head up high, pull your shoulderâ€™s back
Now take the plunge and donâ€™t look back

Around the World
If you know the moves now get in the groove
Ignore the prudes, be a little rude!
Around the World
Head up high, pull your shoulderâ€™s back
Now take the plunge and donâ€™t look back

Grip. Release. Grip. Release. Grip. Release. Grip.
Release. Grip. Release. Grip. Release.
