Powerfull nations  
Planning the future of all being  
With the only intent  
Of self benefitIt's clear they don't find  
Any difficulty to realize it  
Cause there is no reaction from the plebe  
It's depressing to get this conclusion  
But all your life is briefIn subjecting the impost laws  
Without at least wondering about  
A totally despicable being  
Analysing all your life  
I just can't find  
Any positive attitude  
After all, why are you alive ?  
You don't worry about  
Improving your life  
You don't mind what's happening  
Your acts are completly limited  
Before all what is wrong,  
Hope of a better world ?  
Anything will change if you don't envolve  
Wake up and protest  
When subjecting to dirty  
Inhuman feeling and attitudes  
As your pride and egoism  
You start your own  
Chaotic reality  
Deliver yourself from  
This egoist attitudes and  
From your point of view  
Try to be juster with yourself  
Get away from your own  
Chaotic reality
