Giant for it's own nature  
The truth in silence  
A scream gets in your conclusion  
Escape or die  
My glory hymn is sold  
My honour betrayed  
I close my eyes  
Impossibilited of living  
Like a human being  
You cannot fight  
Marginalized by a failed government  
Without resourcesJust exploring the population

(CHORUS)

FAILED SOCIETY - with laws  
FAILED SOCIETY - corruption is bearing  
FAILED SOCIETY - living in decay  
FAILED SOCIETY - my destiny is dilacerated

Chaos in future centurys  
Peoples elect the same person  
Benefited by wars peoples prosper  
My crime had just begun  
Suffering day by day  
Without chance of changing  
What can I do ?  
Living with racism,Nazism, fascism,Nationalism  
Social diferences  
There's no evidence

(REPEAT CHORUS)
