Membrous flesh between cranial bone, I stab in two
Fingers at the peak of the dome.
Cerebral sludge coats my hand, Fingering the hole to
make
It expand.
The head of a newborn I use for masturbation, fucking
the
Cranial hole, fontanelle fornication
Flicking my tongue over the gaping headwound,
sucking out
Tender gray matter.
Crimson clumps slip down my throat, my face mottled
with
It's fucking splatter
Infant clasped between my hands, crushing it's brittle
Bones.
Thrusting my penis into the punctured softspot, fucking
it's tender skull.
I fondle and squeeze it's minute genital. Primal
screams
Piercing my head.
Infant kicking and convulsing after only days of life,
It's now dead.
As I climax I cup it's soft anal cheeks in my hands and
Rip the baby in two.
Over my head a leg in each hand, I scream as I'm
showered
With innards
