Morally rejected, my mind is infected  
Whispering homicide, activate a deadly ride  
Temper lost, no control  
Dementia overload  
You won't escape tonight's assault  
Fuck you! It ain't my fault!

Dormant compulsion laid to waste  
Brooding menace with death in his face  
Body all rigor and livid his skin  
Laid out real cold with a petrified grin

Screams of agony gone unheard  
Savage killing, brutally absurd  
Slow motion beating, bludgeoned to death  
Battered body from toe to head

From despire to despise  
Demented creature ostracised  
Killing image branded in his eyes  
Raging panic as he dies

Open legs undignified  
Fucked up with incestual pride  
Outstretched raped bitch  
Body slung in a ditch
