"Insane Savagery"

Personality confused, thoughts unable
Lacerated image, twisted mind unstable
Reality distorted, revenged comforting sights
Sickening fantasies brought to life

Dominant flesh and blood... paedophile
Deviant sex tastes, perversions vile
Insane psychopath unabated
Tortured existence unседated

Adversary dead, insane savagery, burning red
Adversary dead, insane savagery, burning red

Voices in the darkness from below

Nightmares screaming out "hello"
Now soft she feels with her razored skin
Destroy life, let's begin

With a rusted knife, I'll show her affection
Evil thoughts, instant erection
Fallen angels pray and sing
As I commit the ultimate sin

Forced in fingers, her chest's ripped open
Organs brought out, exposing her innards
Bones protruding, splintered and broken
Cut out her eyes, torn body sodomized
