"Invitation To Reflection"

Visit "[Invitation To Reflection](#)" on MotoLyrics.com

It's easy talk about environmental protection
Calling racists motherfuckers
Wanting hang politicians or change the world
From day to night without a specific objective
Talking is easy cause we're not always direct targets
But did somebody stop and say:
"I'll do my part, and a little bit more"
Invitation to reflection

(CHORUS)

Words are just like the wind
They go, and get lost with time
Just words don't work out
But conscient acts are an alternative
Words are limited
Don't see it just like another text
But as a constructive critic
Agree or disagree, but, reflect

We can talk how destroying
Environment is inhuman
But we don't give a damn
To Mc'Donald's devastating the rain forest
Discussing problems as hunger
Talking hard to seem intelligent
It's easy when stomach is full
But how many times did you help a poor ?
Seventy percent of world's population is poor and ignorant
What's the priority of a father,
Eliminate prejudice and have social consciousness
Or keep his family ?
It's hard trying to change people like him,
But it's harder trying to change the whole society
But if nobody makes the first step nobody will
INVITATION TO ACTION !!!

(REPEAT CHORUS)
