Needle enters vaginal skin, thick black stitches secure  
Her quim. Menstrual blood streams from the  
interlocking  
Seams.  
Pheremone reeking, the fucking slut screaming.  
External  
Organs slashed, sliding a knife edge up the gash.  
Obliterated flange stitched for stimulation. The  
surgical  
Pleasures of pharaonic circumcision.  
Clit and labia cut out, the vulva I thread with a  
Leather, bloodying my hands, sewing the cunt  
together.  
Stab her tight ring, piss in the fat, forcing her to  
Consume her dissected twat.  
Double-edged blade circles her tits, removing the  
sking  
With a single incision. As blood liquid tissue spills, I  
Splatter her with my jism. Choking her with phallic  
Plastic, loaded in her deep throat: I rip out her pubis  
And lick it's exposed scarlet meat.
