Immorally thrown out into the streets  
People are set in opposition  
The scandalous wealth of  
High society thieves  
So hated bourgeoisie  
Being drowned in millions  
Gotten thru' self humiliation  
Show to the city visitors  
In this city the only way to survive is living on our knees  
Asking tourists for alms,  
Who use their own power  
Laughing, spitting on your face  
Treat people like dogs  
And think they can destroy  
All around they pass by  
No view to a life  
Living in a touristic city  
No Hope for another day  
Living in a Touristic city  
Most miserable conditions  
Imposed against dwellers  
Make them follow rules thru' submission  
A kind of ratiocination not pleassant to anyone  
But it gotta be done to foment development  
And tourism in the city  
A true profits game,  
Hell coming true  
Wherever you look at  
But visitors around  
Insist on not see it
