I've been thinking its about time
You and me we go for a ride
We got the wide open road in front of us
Just you and me and my old VW bus
Just leave your job and we'll live off the land
And go on tour like a rock n' roll band
I know you well and its plain to see
You need the road just as bad as me
Come with me and you'll see the country
Might take time and it might get bumpy
We'll make it as a travelin' team
Drive till we run out of gasoline
Drive till we run out of gasoline
Its in your eyes you're ready to go
East or west I just don't know
Just bring some change and some cigarettes
Ain't got no time to take no rest
Time is movin' and we're sittin still
Don't worry honey I'll get the bill
We're goin to ride until we meet our grave
By the way my name is Dave
Come with me and you'll see the country
Might take time and it might get bumpy
We'll make it as a travelin' team
Drive till we run out of gasoline
Drive till we run out of gasoline
