Sun don't shine since you went away  
Where did you go and where did you stay  
I'm packin my bags and I'm lockin the door  
Jumped in my car and pushed the gas to the floor  
Two left turns and I'm on my way  
Drivin all night and sleepin all day  
Pull into town about two in the morn  
Came back here to the town I was born  
-Chorus-  
Guess you couldn't take any more of my games  
You hate me, but its you that I blame  
Thought you got me, when you left town  
But I'll see you baby cause I'm Memphis bound  
You took my heart, but thats ok  
Cause I'll be back some other day  
I'm startin again whats that drink in my hand  
I don't know why and I don't understand  
Did I come here to live did I come here to die  
Won't let it get away I came here to try  
I'm startin again new gal at my side  
Grabbed on with both hands and hold on for the ride  
Left me empty handed not a cent to my name  
But I roll with the punches now I'm back in the game  
Chorus  
Jam  
Chorus  
I was doin fine and makin my way  
Workin my job and earnin my pay  
No one blamed you for what I been told  
I changed my own way when I opened the door  
She was gone not a trace to be found  
Only a note sittin there on the ground  
It said good-bye and I'll see you someday  
I know shes gone shes gone to stay
