LAZY DAYS

(Music by Elio Pace - Words by Elio Pace

Living these lazy, lazy days  
Living these lazy, lazy days  
Living these lazy, lazy days

These lazy days gonna last for a while  
Spent all day screaming and all night on the wire  
Got another shot, take my luck  
Wash away the pain, stench and muck and misery  
You laid on me  
And I'll be happy living these lazy days

Living these lazy, lazy days

Those wasted lies gonna hang over you  
Made up my mind  
I'm gone and all done crying like a fool  
Take a last good look at me  
Keep it with those sweet memories of yesterday  
You threw away  
Because I'll be happy living these lazy days

I play the blues, I play the blues for company  
It's paradise, yeah that's just the way it's gonna be  
Give me one good reason, tell me that I'm wrong  
For loving life the way that I do, that I do, without you  
These lazy days

solo

Got a lonely mug on the tree  
Waiting there for no one but me  
Free as a bird, hear every word  
Because I'll be happy living  
I'll go on living lazy days
