OH SO TIGHT

(Music & Words by Elio Pace) Copyright Control

I need a thing from you 'cause you know what to do
To keep my motor running, to keep my spirits flying
high

'Cause when I'm feeling low I sit and play my piano
And with you here beside me the rock and roll will
never die

Bring your dancing shoes, suede in shades of blue
And please don't forget a pair for me
The beat just turns me on and with my inhibitions gone
I'll make a move tonight so I can hold you oh so tight,
oh so tight

Go back to '55, when music came alive
With Haley's 'alligator' and Presley brewing up a
storm
The feeling they inspired, a generation fired
In me the fire's burning, it started soon as I was born

But that's then, this is now
So let's take a vow to make this night be a memory
The beat just turns me on and with my inhibitions gone
I'll make a move tonight so I can hold you oh so tight,
oh so tight

Oh so tight, now I know inside me it's so right that I
feel this way
Hold me tight, let me hear your heartbeat
Let's begin to play, let me hear you say
I'll make a move tonight so I can hold you oh so tight
