Dear someone. I know your out there. If you can hear me, just show your face.

I've been waiting here for you. For as long as I can remeber.

You've been in and out of my dreams, I just wish that you were real.

I hope that someday, we'll be together. Once and forever.

I've been writing these letters to myself, hoping that maybe someday you will see

That in this love-song with you and me. I want to stay like this forever.

Just as long as your happy.

I know, that you're somewhere out there, somewhere on your own

I want to be with you forever. Just like it used to be.

Just like before you got too good for me.

I know that someday you will see. That you're the only one for me.

I've been writing these letters to myself, hoping that maybe someday you will see

That in this love-song with you and me. I want to stay like this forever.

Just as long as your happy.

And I know, that your the only one for me

And I know, that you've read those letters that have been written in my head

And I know, that we can find a better ending to this story without another broken heart.
