Friday Night Boys
"Can't Take That Away"

Silence is easy
To say this is killing me
I'm sorry you wasted a thousand tears on me
But something was missing
And I'm regretting it tonight
Pushing you away
I know you don't believe me
And i just wanna say

I remember conversations before i gave up on me
And if it's any consolation
I remember everything
And you can't take that
No you can't take that away
You were the one who saved me
And you can't take that away
Away
Away
Away

They turned off the streetlights
Before I could say goodbye
Guess I was a lost cause
You still kept me alive
So if you are listening
I'm regretting it tonight
Maybe it's too late
But if you ever could believe me
I just wanna say

I remember conversations before i gave up on me
And if it's any consolation
I remember everything
And you can't take that
No you can't take that away
You were the one who saved me
And you can't take that away
Away
Away
Away

I remember conversations

And if it's any consolation

I remember conversations before i gave up on me
And if it's any consolation
I remember everything
And you can't take that
No you can't take that
You can't take that
No you can't take that away
You were the one who saved me
And you can't take that away
Away
Away
Away
Away
