Well from the waist down
And don't turn around
Your body takes turns like the words
Like the words that are falling from my mouth
My Jaw dropped down
My mind it starts spinning
Starts spinning all over again

I'll let you go
Go do whatever-ever lie
I'll hold you close
(but your heart says no)
Well this feels like high school but nothing's new
Where every other boy tries talking to you
I guess graduating changes nothing at all

Well from the neck up
There's not much to say
I know I could do better
Could do better anyway
Well when I'm waking up
Here next to you
Well I'll be thinking to myself what the hell
What the hell did I do

I'll let you go
Go do whatever-ever lie
I'll hold you close
(but your heart says no)
Well this feels like high school but nothing's new
Where every other boy tries talking to you
I guess graduating changes nothing at all

So high school all over again
Girls trick boys into thinking they might get
I guess graduating changes nothing at all

Well I got over you at last
Well baby I get the last laugh
Where you going where you going
No one cares to know

Well this feels like high school but nothing's new
Where every other boy tries talking to you
I guess graduating changes nothing at all

Well high school all over again
Girls trick boys into thinking they might get
I guess graduating changes nothing at all
(nothing at all)
Nothing at all
High school's over
