In her room the lights go out  
I wonder if she'll just let this go now  
Just lock the door and fall back down  
Her body shakes so nervously  
Take my hand and let's just leave this party  
I see her eyes all over me tonight  
I'll walk you home  
What would it take to let you go  
In your eyes just give me a sign

She's so scence, Hollywood dreams  
Broken 'cause she's no good at anything  
Run around, and around make up your mind  
I bet you strike out with her tonight

She'll look at you and swear she's true  
What will moving to California do  
I know for sure she's lost her way  
You'll be wrapped around her finger too  
She's a little too much and a little too good for you  
Hang on to every word she says, but never again  
I'll walk you home  
What would it take to let you go  
In your eyes give me a sign

She's so scene, Hollywood dreams  
Broken 'cause she's no good at anything  
Run around, and around make up your mind  
I bet you strike out with her tonight

You can't deny  
You can never catch her in a lie  
If she brings you in a room and you close the door  
You'd be right where every guy has gone before  
[x2]

She's so scene, Hollywood dreams  
Broken 'cause she's no good at anything  
Run around, and around make up your mind  
I bet you strike out with her tonight  
[x3]

I bet you strike out with her tonight  
I bet you strike out with her tonight
