

Museum Of Neurotic Origins "Travel"

Visit "[Travel](#)" on MotoLyrics.com

keep your eyes
keep your eyes open
it ever starts
with a word strangely fall silent
keep your eyes open to this

keep your mind
keep your mind open when someone is top
give you monsters to eat
keep your mind
keep your mind open to this

and keep your heart
keep your heart open by traveling
wonders are waitin' to happen soon
keep your heart open to this

dry your eyes
feel save now in my arms again
feel save back in my arms
keep your eyes
keep your eyes open
it ever starts
with a word strangely fall silent
keep your eyes open to this

keep your mind
keep your mind open when someone is top
give you monsters to eat
keep your mind
keep your mind open to this

so dry your eyes
there is no cloud in the sky
there is no cloud in the sky
so dry your eyes
feel save now in my arms again
feel save back in my arms
