[Verse 1:]

I see you standing there looking like you need me over there (yeah) so stay right there I'm fen to come around but this dancefloor is crouded girl (ooh oh)

[Bridge:]

On my way to you and I swear there be more than just dancing, suckers try to block me be clear I'm the one that's going to get that girl, so don't play yourself, and you're my target baby
She cannot move she's in the scope, I'm set up for my shot of love, and I'm sorry but she's leaving here with me, just wait and see, I've come too close to let her go, I'm the one she's waiting for, I'm setting up the play, this thing can't go no other way I'm taking you baby

[Chorus:]

Got her in my scope, but I just can't let her go it's like target practice, gotta let her know that I never ever come up short it's like target practice, I think I'll let her know the maybe's outside the door it's like target practice, got her in my scope, but I just can't let her go

[Verse 2:]

I see you staring now, looking like you see my plan girl (uh yeah) I wanna get you up against the wall and bring out the freak in you (uh ooh oh)

[Bridge:]

On my way to you and I swear there be more than just dancing, suckers try to block me be clear I'm the one that's going to get that girl, so don't play yourself, and you're my target baby
She cannot move she's in the scope, I'm set up for my shot of love, and I'm sorry but she's leaving here with me, just wait and see, I've come too close to let her go, I'm the one she's waiting for, I'm setting up the play, this thing can't go no other way I'm taking you baby

[Chorus:]

Got her in my scope, but I just can't let her go it's like
target practice, gotta let her know that I never ever
come up short it's like target practice, I think I'll let her
know the maybe's outside the door it's like target
practice, got her in my scope, but I just can't let her go

[Verse 3:]

Yeah, I'm about to line up the shot, hope the beat don't
stop, I'm walking through the crowd hair trigger gone
pop it's on, my bulls eye second to none

And you're my target baby

[Bridge:]

She cannot move she's in the scope, I'm set up for my
shot of love, and I'm sorry but she's leaving here with
me, just wait and see, I've come too close to let her go,
I'm the one she's waiting for, I'm setting up the play,
this thing can't go no other way I'm taking you baby

[Chorus:]

Got her in my scope, but I just can't let her go it's like
target practice, gotta let her know that I never ever
come up short it's like target practice, I think I'll let her
know the maybe's outside the door it's like target
