As they feed the war machine
And pull the strings behind the scenes
With a bloated sense of supremacy

Blinded by the preconceived
Distorted way to be perceived
It's what's believed by your enemy

Hold on to something, here come the rains
This dam is about to break
Hold on to nothing, self-contained
How much more can you take?

Might is right and thought is wrong
It's along road nowhere
Enjoy the ride with blinders on

Your government is in control
They'll keep you safe inside your homes
Board your windows lock your doors

Hold on to something, here come the rains
This dam is about to break
Hold on to nothing, self-contained
How much more can you take?
Before you break, let freedom ring

Unto the dawn of darkness, glistening
Faithless savior murder me
Feed me to failure, disbelief
What does it take, everything I could want believe?

Feed me to failure faithless savior murder me
Finish me, feed me to failure murder me
Finish me, what does it take to stop me
Finish me, nothing could make me not believe

Won't let this world get to me, finish me
I'll never live your life for me, unto the dawn
Unto the dawn of darkness
Unto the dawn, glistening

Feed me to failure finish me
Feed me to failure murder me
Unto the dawn of darkness finish me
Finish me, unto the dawn murder me

Caught in the wave of the world around me
And in this state I'm sure that it could drown me
Will I ever learn the way everywhere I turn today
Something tells me runaway, something burns inside
me

Even though I've pressed erase
Feel it slowly fade away
Thoughts that go on endlessly
How much longer can I wait
What does it take? What does it take?

Caught in the wave of the world around me
And in this state I'm sure it could drown me
Caught in the wave of the world around me
And in this state I'm sure that it could drown me
What does it take? What does it take?

Will I ever learn the way everywhere I turn today
Something tells me runaway, something burns inside
me
Even though I've pressed erase, feel it slowly fade
away
Thoughts that go on endlessly, how much longer can
we wait?
Caught in the wave of the world around me
And in this state I'm sure that it could drown me
