Just come and treat me like i was a puppet, baby,
Raise up the counter, babe, and welcome to the show
they say,

It's the middle, say, welcome to the middle, they say,

PreChorus:

It's the middle, it's the middle just jump into it,

Chorus:

it's fucked up, im fed up,
i push them away,
i'm tainted and built up,
and i move through the day,
(end Chorus)

Just move around and dry it up until it's nothin', baby,
I've got a reading, it's gotta keep 'em on thier toes,
you say, it's the middle, ain't nothin' in the middle for
me

PreChorus

Chorus (x2)

I feel so lonely, lonely, lonely, lonely, lonely
what can say,
if my ship don't come in, then i'll walk away,
I feel so lonely, lonely, lonely, lonely, lonely,
what can i say at the end of the day?

Chorus

it's fucked up i'm fed up
I push them away,
i'm tainted and built up,
and i move through the day,
move through the day,
move through the day,
move through the day.
