What are you takin'
Misleading again
And that face that you're making
You better wipe clean when you can

We're gonna suffer
Inquisition from the pharisees
I know you didn't mean to move by
Let me take the blame
Let them right
What was left of me

And the reason I get this
The reason I get this
Way... I don't
I don't know

Come in relax, have a seat
You look sort of nervous and ashamed
I know you've never seen the fall guy
Take a dive and wear the scar
But trophy the pain

You better believe I've watched you suffer

And the reason I get this...

But is it worth the pain
