I gotcha comin around the world

Another hit, 365 and more

Steadily, it moves

Under the headlight, the big bright and shiny eye

But it makes no sense, what is there to say?

Because of all the pain inside

I will come to you high

I never thought that you would break like I do, go

Get off!

But it makes no sense

I keep throwin all the pieces high

For the mob boss, breakin laws

I'm pushed over the edge

I can't keep my hands clean, I can't lie

Another hit...another hit

Because of all the pain inside

I will come to you high

I never thought that you would break like I do, go

Hey, Get off!

Because of all the pain inside

I will come to you high

Because of all I see ain't right

Like I do, like I do, like I do

Like I
