We are about to take you into the world... of the LSD user...

Now... you can see the difference between a real cigarette and marijuana... and there can be no mistaking the texture or content... if you were to handle it. The darker one has been rolled in sweet straw paper... in most of the reefers double thickness paper is used... now, in the language the addicts use among themselves, marijuana is referred to as Mary Jane, Pot, Weed or Tea. They never say to each other, "Let's smoke a marijuana cigarette", they say "Let's turn on" or "Let's blast a joint."
