Mushroomhead
"Stand Back"

You're starin at the wall,
Didn't stop, I started drawin',
A million pictures of hearts,
Till I ran out of room,
And I'll pay for the damage,
Re-paint it myself,
Girl just take a second,
To look hard at my mess,
Cause it's more than it seems baby,
It came from somewhere deep in my heart,
It's bigger than that,
And you'll see it through,
If ya

If ya stand back,
Sometimes to see it,
Gotta stand back,
The bigger pictures always blurred,
Too close to read the words,
But if ya stand back,
You will see much better... better,
You will see much better... better,
You will see much better... better

You back up and then you saw,
Couldn't stop, you started cryin',
A million pictures of hearts,
Made a picture of you,
And now you wanna keep it,
That's just how it is,
When you take a second,
To look harder at a mess,
It's more than it seems baby,
Came from somewhere deep in the heart,
Bigger than that,
But you'll see it through,
If ya

If ya stand back,
Sometimes to see it,
Gotta stand back,

The bigger pictures always blurred,
Too close to read the words,
But if ya stand back,
You will see much better... better,
If ya stand back,
Sometimes to see it,
Gotta stand back,
The bigger pictures always blurred,
Too close to read the words,
But if ya stand back,
You will see much better [Ooohh]... better,
You will see much better... better,
You will see much better... better,
You will see much better... better

You will see much better... better,
You will see much better... better

If ya stand back,
Sometimes to see it,
Gotta stand back,
The bigger pictures always blurred,
Too close to read the words,
But if ya stand back,
You will see much better... better,
You will see much better... better,
You will see much better... better
