They sit next to me
In all my classes
They wear short skirts so i can look right up their asses
Bleached blonde hair and bright red lipstick
You can be a high school slut
Like them too hoo hoo

Thier giving head to their body buliding boyfriends
To gain the popularity

[Chorus]
They're stuck up high school girls
The're fucked up little girls
They're stuck up high school girls
Oh oh oh yea

Watch your back
Keep your head held tight
I'm about to do a stuck up high school girl drive by
The world can do without a snotty little princess
They tick me off
Now get the fuck
Out of my face

[Chorus]

They're wrong
They're wrong
