Infatuation with you  
I'd do anything for you  
Your shiny lips are pleasin'  
But there's no reason for you

No limitations please  
All I want is all I can get  
Lover why you makin' me play this game of rockin'  
roulette?

You don't know nothin' but hide your selfish heart  
Let me share it with you  
I'm gettin' drunk all the time  
I'm like a fish on a line over you  
You just come and go, I fill one brief hole in your life  
I'm just your entertainment you come and play with a  
while

The complication with you  
Is that I know you'll never be true  
You're like an act of treason, no rhyme or reason for  
you
