know what i was thinking? thinking how nice it'd be
to wake up every morning with your eyes on me
you know what i was thinking? it could be a while

you know what i was hoping? hoping that right now
could last a little bit longer maybe stay just a little while
you know what i just noticed? how much i miss your
smile

i wanna run with you down to the water
take our (clothes) shoes off and race across the sand
i wanna kiss you underwater
come up for air but there's nothing there except for you

you know what, i don't care. i don't care what people
say
why should it matter what they say that we should be
but you know it'd be nice, if we knew ourselves

baby i don't know any better way, to tell you that i love
you
except for maybe to tell you that i'm sorry for all the
times i've hurt you
it's crazy, this feeling that i get inside, when i'm not
around you
baby you're always in my heart, always in my thoughts,
always in my mind.

know what i was thinking? thinking how nice it'd be
to wake up every morning with you eyes on me
you know what i was thinking? it could be forever baby.
