if you want me to go, baby lemme lemme know
before i say something stupid
if you want me to stay, baby tell me tell me so
i'll save you some of your precious time

we could take forever baby
and just say nothing at all
we could take a long time

if you think we should leave, baby tell me tell me so
i am good at forgetting, you know I'm good at
forgetting you

we could take forever baby
and just say nothing at all
we could take a long long time

just you... and me.
baby it's just you... and me.
baby it's just you... and me.

i don't want you right now
i don't need you around
i'm in love with the sound of your tears from far away

i don't want you right now [i don't want you]
i don't need you around [i don't need you]
i'm in love with the sound of your tears from far away

i don't want you right now
i don't need you around
i'm in love with the sound of your tears from far away
