Don't do nothing crazy girl,  
Until I come back,  
Until I come back  
Until I come back

Don't do nothing crazy girl,  
Until I come back,  
Until I come back

Oh yeah yeah  
Would you wait for me? It won't be long  
I'm not tryna be free  
I'm tryna free us both from a situation that's going  
wrong  
Cause we got nothing, nothing to live on

All I got's this music  
It's not between you and this guitar  
All I wanna do is use it to get us far from where we are  
And girl I know the look I can see it in your eyes  
Scared of losing me to the city lights  
What's gonna happen when my star is shining bright  
First thing I'm gonna do, I'm coming back for you  
Yeah, I'm coming back for you  
Oh girl I'm coming back for you  
You know I'm coming back for you

Don't do nothing crazy girl,  
Until I come back,  
Until I come back

Oh yeah yeah,  
Won't you tell me, you understand  
Let me go, just let me be a man  
Provide for ya, what's right for you  
It's a test of faith, and I know he's got a plan

All I got's this music,  
It's not between you and this guitar  
All I wanna do is use it to get us far from where we are  
And girl I know the look I can see it in your eyes  
Scared of losing me to the city lights

What's gonna happen when my star is shining bright  
First thing I'm gonna do I'm coming back for you  
Yeah, I'm coming back for you  
Oh girl I'm coming back for you  
You know I'm coming back for you

I'm doing this for you, so we can make it through  
We can't just survive  
I need to feel alive, alive, alive, alive, alive  
Don't do nothing crazy girl,  
Until I come back,  
Until I come back  
Until I come back

Don't do nothing crazy girl,  
Until I come back,  
Until I come back

And girl I know the look I can see it in your eyes  
Scared of losing me to the city lights  
What's gonna happen when my star is shining bright  
First thing I'm gonna do I'm coming back for you  
Yeah I'm coming back for you  
Oh girl I'm coming back for you  
You know I'm coming back for you

I'm coming, I'm coming, I'm coming back for you  
I'm coming, I'm coming, I'm coming back for you  
I'm coming, I'm coming, I'm coming back for you  
Oh oh oh, oh oh oh, oh oh oh, oh oh oh  
Oh oh oh, oh oh oh, oh oh oh
