Who you are
All your dreams come true
Who you are
Will you ever understand
All my life
I tried to be there/[them]
Now I'm sure
That this is the end

Stay /[to the end], come what may
Yeah, come what may

Who you are
All your dreams come true
Who you are
Will you ever walk the sea/[same]
All my life
I tried to be them/[there]
Now I know
That this is the end

Stay, come what may
Yeah, come what may

I've been holding you in my mind
Scared, of facing you
And now I'm working my life away
Lonely for you

Stay, come what may
Yeah, come what may
